Project Name: Twenty-One Bitterbrush Planting CX Log #: OR-014-CX-07-02
Location: T 40S R14.5E Sec 16,21,22
BLM Office: Lakeview District , Klamath Falls Resource Area County: Klamath County, Oregon

DESCRIPTION OF THE PROPOSED ACTION (INCLUDING PURPOSE AND NEED)

Description of the Proposed Action:

This project will consist of planting 10,000 bitterbrush seedlings and the installation of protective tubes around each seedling in units where western juniper was removed. The planting will consist of using hand tools to dig small holes to plant the seedlings. Approximately 190 acres of the 1042 acre unit may be planted with bitterbrush (see Map 1). Western juniper was cut, piled and burned and the bitterbrush will be planted within the burned pile areas.

The purpose of the project is to provide future deer forage and wildlife habitat by reestablishing the shrub community in the area. The unit is within deer winter range and will provide forage during the winter months for deer and forage and structure for other wildlife. This type of planting has been considered successful in the past in reestablishing the shrub community.

To prevent the spread of noxious weeds, all vehicles and equipment will be cleaned prior to operating on BLM managed lands. Removal of all dirt, grease, and plant parts that may carry noxious weed seeds or vegetative parts is required and may be accomplished with a pressure hose.

IMPLEMENTATION DATE

This project is expected to be implemented in March or April of 2007.

IDENTIFICATION OF EXCLUSION CATEGORY

The proposed action has been identified as a categorical exclusion under Bureau of Land Management Categorical Exclusions (516 DM 6, Appendix 5.4 (C) 3.

COMPLIANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT

The proposed action is categorically excluded from further analysis or documentation under the National Environmental Policy Act (NEPA) if it does not meet any of the following Exceptions (listed in 516 DM 2, Appendix 2; IM No. OR-2002-130).

Will the proposed action meet the following Exceptions?

Exception	Yes No
1. Have significant adverse effects on public health or safety?	() (X)
2. Have adverse effects on such unique geographic characteristics or features, or on special designation areas such as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; sole or principal drinking water aquifers; prime farmlands; or ecologically significant or critical areas, including those listed on the National Register of Natural Landmarks. This also includes significant caves, ACECs, National Monuments, WSAs, RNAs.	() (X)
3. Have highly controversial environmental effects (40 CFR 1508.14)?	() (X)
4. Have highly uncertain and potentially significant environmental effects or unique or unknown environmental risks?	() (X)
5. Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?	() (X)
6. Be directly related to other actions with individually insignificant, but significant cumulative environmental effects? This includes connected actions on private lands (40 CFR 1508.7 and 1508.25(a)).	() (X)

8. Have adverse effects on species listed or proposed to be listed as Federally Endangered or Threatened Species, or have adverse effects on designated critical habitat for these species? This includes impacts on BLM-designated sensitive species or their habitat. When a Federally listed species or its habitat is encountered, a Biological Evaluation (BE) shall document the effect on the species. The responsible official may proceed with the proposed action without preparing a NEPA document when the BE demonstrates either 1) a “no effect” determination or 2) a “may effect, not likely to adversely effect” determination.	() (X)
9. Fail to comply with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act (water resource development projects only)?	() (X)

The proposed action would not create adverse environmental effects or meet any of the above exceptions.

DOCUMENTATION OF RECOMMENDED MITIGATION

Note: although none of the conditions for the above exceptions are met, the resources discussed are potentially affected. Mitigation measures and Project Design Features below are applied to prevent the adverse conditions discussed in the exceptions:

SUMMARY OF FINDINGS AND CX DETERMINATION

The proposed action would not create adverse environmental impacts or require the preparation of an

environmental assessment (EA) or environmental impact statement (EIS). The proposed action has been reviewed against the criteria for an Exception to a categorical exclusion (listed above) as identified in 516 DM 2, Appendix 2, and does not meet any Exception. The application of this categorical exclusion is appropriate, as there are no extra ordinary circumstances potentially having effects that may significantly affect the environment. The proposed action is, therefore, categorically excluded from additional NEPA documentation.
